EASTER TO BE REAL COLD ONE

Weather Men Predicting a
Freeze in This Section
Tomorrow.

(By the Associated Press)
OKLAHOMA CITY, March 26.—It is going to be a chilly Easter Sunday, with probably local showers and a March wind that is apt to play antics with millady's finery.

Such was the information imparted by the dispensers of weather at the government bureau here today. A cold wave in the northern and western section of the state with freezing temperature over those sections and the central portion was the outlook.

Snow in Colorado, Wyoming and Utah, with freezing temperature as far south as northern Colorado, was reported to the bureau. Duration of the cold spell was indefinite, weather officials said, and depended entirely upon the development of a high pressure area.

WASHINGTON, March 26.—Weather prediction for the week ending Monday are: Lower Missouri valley, generally fair, but with a probability of rains Wednesday and Thursday. Freezing temperature at beginning of week. Normal thereafter.

LA FOLLETTE BITTER IN LATEST SPEECH

Proud of His War Record
and Will Make Race
Again.

(By the Associated Press)
MADISON, Wis., March 26.—Reiterating his stand against America's entrance into the world war, and his opposition to the policy of congress for financing the war department, was made by Senator Robert M. LaFollette here last night, speaking before the People's Reconstruction League.

A crowd that packed to overflowing the assembly chamber of the Wisconsin legislature burst in to extend applause when the senator declared that "I would not trade my record for that of any living man in the world on this war."

"There are no words sufficient to put upon those responsible the infamy deserved for the system imposed on the people through the conflict," he said.

Senator LaFollette said he would be a candidate for re-election in 1922 and was already laying his issues which, he developed, would be largely on the past war and on the Irish question.

Belton Brady left today for Sherman, Texas, in response to a telegram stating the death of his father in a Sherman hospital this morning. The father, S. B. Brady lived at Roff and it will be remembered by his Ada friends that he was ill several days in the local hospital at Ada before being removed to Sherman where he died today. The remains will be shipped to Roff tomorrow where the burial will take place.

More than \$80,000 women are employed in scientific and industrial pursuits in the United States.

Good Bye "Honest Bill"

Tomorrow William Newton ("Honest Bill") and his big road show, consisting of circus and wild animal menagerie, will start on their long seasons trip across the country.

When the show season ends next fall Bill will come back to his winter quarters, and his newly adopted home, Ada. Bill is proud of Ada, and Ada is proud of Bill. He is not only a showman and a business man of extraordinary ability, but he is a gentleman and a scholar, a city booster and an all round good fellow.

Ada will always reserve a warm welcome for William Newton, and we are so proud of him that we follow him in his yearly swing around the circle and anxiously wait his return to winter quarters.

Here's to ye, Bill, may this be the best season you ever had, and may you come back to us with the same old pep and vinegar that has characterized your acquaintance here for the past two seasons. Good bye, and good luck!

NEW OIL SAND FOUND AT ALLEN

Montrose Company Expects
To Bring in Big Producer
Within 48 Hours.

A new sensation was created in the oil field near Allen, Thursday, when it became known that the Montrose company had punctured a new oil sand, thought to be capable of large production at 1,360 feet, in their well on the Alice Perry lease, in section 20, township 5 north, range 8 east.

The first unofficial reports were that a gusher had been brought in. Next, it was reported that a gusher was about to be brought in, and finally, after the first excitement had partly subsided, sentiment settled on the fact that an oil sand had been punctured, that there is a good showing of oil and a healthy pressure of gas which in all probability will develop into one of the best paying wells in the Allen territory.

The first reports were tinged with an extravagant flights of the imagination which were enhanced by the usual cloak of secrecy which the local superintendent undertook to place around the well. However, upon the arrival of the company's head geologist, Mr. M. E. Wilson of Fort Worth, the announcement was made that the company had no secrets with reference to the well, and that the public was welcome to any information which developed.

It is reliably reported that 500 feet of oil is standing in the hole, and that the sand has been penetrated only a few feet. The drillers are now under reaming to lower the casing to the cap rock, and as soon as this work is accomplished the well will be drilled in. The drillers have encountered some trouble with a cave-in behind the casing but they are making good headway and in all probability the sand will be drilled in within the next 48 hours.

Men familiar with conditions at the well express the opinion that it will probably produce 100 barrels per day, and perhaps 150 barrels.

The most significant thing about the well is that it opens up entirely new oil field in the Allen territory. In the old field, comprising 125 wells, the depth at which oil has been found is in the neighborhood of 750 feet. Most of the wells produce about 15 barrels per day, although some of them run more than that amount. The nearest producer to the new well is a gasser, located a quarter of a mile north of it, in which the gas sand was struck at approximately 1,400 feet. This gas well tests about four million cubic feet at the time and supplies the city of Allen with gas. The Montrose well is located on a different structure, that on which any of the other producing or dry wells have been drilled, and it is thought that the strike will be the signal for increased activities in the locality, and eventually in making Allen the Center of a great field.

Leases are reported to be changing hands at high figures, and it is said that several development companies are in the course of organization to make other tests in the new field. Excitement in the city of Allen was running at such a fever pitch yesterday, that the Allen Democrat, a weekly paper, published an extra, in which the statement was made that drillers at the well estimate that the new wonder will easily make 200 barrels now, and "when the sand is penetrated further she will be capable of producing 500."

THE WEATHER

Tonight fair in fest, showers in east portion. Much colder. Cold wave in north and west portion, with freezing temperature. Sunday probably fair, colder in east and south portions.

"NOTHIN' LIKE STARTIN' YOUR VACATION EARLY"

WAGE STANDARD BILL COMING UP

Is First Matter To Come
Before April Session
of Congress.

(By the Associated Press)
WASHINGTON, March 26.—A bill to fix new wage standards for all government employees, is to be one of the first measures to obtain consideration at the April session of congress. Salary scales in general will be raised, but wages for several classes of employees may be reduced.

Senator Smoot, republican of Utah, and treasury experts are preparing a bill. It is the plan to cease paying federal employees from lump sums at salaries fixed at the will of the bureau chiefs and also to dispense with the bonus system adopted during the war.

The increased cost of living, higher wage scales of private industries and many other factors are to be taken into account.

ATTEMPT TO FREE WILLIAM CREEKMORE

(By the Associated Press)
OKLAHOMA CITY, March 26.—A motion to dismiss the case pending in the circuit court of appeals against William J. Creekmore will be filed within a few days, according to a statement made today by H. E. McAdams, Creekmore's attorney. He said he would attack the motion the pardon granted last summer to Creekmore by R. L. Davidson at the time acting governor of the state.

The house investigating committee in a report read yesterday asked that Creekmore be returned to the criminal court was invalid.

JAMES DAVIS TO DIRECT RAILROADS

(By the Associated Press)
WASHINGTON, March 26.—James Davis of Iowa, is understood to have been selected by President Harding for the position of director general of railroads. Mr. Davis is now general counsel for the railroad administration and formerly was general counsel for the Chicago and Northwestern railroad. He will succeed John Barton Payne, who combined the office of director general with his duties of secretary of the interior under President Wilson.

Last Minute Telegraph

(By the Associated Press)
Wilson a Little Weak

WASHINGTON, March 26.—Former President Wilson was described today by his physician, Rear Admiral Cary T. Grayson, as a little weak as a result of an acute attack of indigestion yesterday, but otherwise apparently recovering from the attack.

Twenty Rioters Killed.

HALLE, Germany, March 26.—Twenty rioters were killed when the security police in Eisleben repulsed an attack upon the Eisleben city hall last night.

Sporadic fighting was reported today from Hettstadt and Mansfeldt.

Harding Talks to Daws.

WASHINGTON, March 26.—Charles G. Dawes, of Chicago, who served as brigadier general in the American expeditionary forces, was called into consultation today by President Harding, regarding various questions affecting veterans of the world war. It was understood that problems of soldier's compensation and care of the wounded were the principle subjects discussed.

More Baseball Indictments

CHICAGO, March 26.—One hundred and forty-four indictments, naming 18 men, were returned by the Cook county grand jury as a result of the second investigation into the alleged throwing of the 1919 world series to Cincinnati by Chicago White Sox players. Eight separate indictments against each person were returned.

The American Legion Baseball Team Will Practice Tomorrow

Manager Cal Sparks of the American Legion baseball team has issued a call for all baseball players, experienced or otherwise, to be out tomorrow afternoon at 2 o'clock for baseball practice and work out. The fair grounds will be used for this purpose as last year. This is the first official call and it is expected many will be out to show their stuff and prowess in the national pastime.

LOST BALLOON MYSTERY STILL

Crews Go in Every Direction
in Search of
Lost Craft.

(By the Associated Press)

PENSACOLA, Fla., March 26.—On the theory advanced by Lieutenant W. F. Reed, instructor in meteorology at the naval station here, that the naval balloon missing since it left here Tuesday evening with five men aboard, could not have drifted to sea in the face of southerly winds prevailing where it was last reported. A navy dirigible with two days' supplies and a double crew aboard left here early today to search the forests of West Florida.

Lieutenant Reed believes that the crew of the drifting bag would have cut away the basket and taken refuge in the rigger. A carrier pigeon which arrived here with a message from the balloonists states that the balloon was 20 miles at sea off St. Andrews Bay Wednesday night and that the bag was sinking and was then about 100 feet above the water. If the bag had been cut away, Lieutenant Reed said, the wind would have blown it inland. He believes that the bag if it reached land, might have come in contact with a tree on descending, causing injury to the men or that they might have been brushed from the rigging by the tree tops. Meanwhile seaplanes and naval vessels are continuing their coastwise search.

WASHINGTON, March 26th.—In their search for the naval balloon missing from the air station at Pensacola since last Tuesday, airplanes, dirigibles and naval ships have covered approximately eight thousand square miles of territory without eliciting a trace of the big gas bag, the navy department was advised today by the commandant at Pensacola.

TWO ARE HELD IN LAWTON MURDER

LAWTON, March 26.—Edward Young, an American, and Griegario Lopez, a Mexican, are in jail here today in connection with the murder last night of Charles Harold, a horseman from Tipton, Oklahoma. Harold was slain on a street about 7:30 after he had according to witnesses statements to the police, resisted an attempt by three men to rob him.

No charges have been filed against Young and Lopez. Feeling against the men became intense last night and police maintained a guard about the jail in which they were confined.

FINAL REPORT ON BABIES CONTEST

Many High Scores Made;
More Boys Than Girls
Entered.

The Better Babies contest and bazaar ended Thursday night with an educational program at the Presbyterian church. R. R. Robinson of the Normal faculty delivered the address on better babies and Dr. McKeel spoke for some time on child health and hygiene.

The address of better babies, given from a psychological standpoint was very interesting and helpful. Mr. Robinson stressed the fact parents do not understand their children when they are small, and that this often leads to future trouble. Other ways and means of making better babies and their care.

The address by Dr. McKeel was also helpful and interesting. He was well versed on this subject and spoke at length about such matters. He emphasized one fact, the importance of a balanced diet for the child, and continued by saying that the greatest enemies to child life was the fly, the mosquito and the bedbug.

A review of the contest was given by Mrs. B. M. Bobbitt and it was found that the entries in class one were higher scores than those in the other divisions, showing that a child is more capable to affliction as it grows older and the importance of having older children examined. Another thing noticeable was that more boys than girls had been entered, yet the girls made higher scores than did the boys.

Dr. Patterson, pastor of the Presbyterian church, then presented the prize to the highest scoring boy and the highest scoring girl in each class. The winners were as follows: Class one; boy, Tom A. Thomas Jr., score 99.5 and girl, Katharine Elizabeth Hardin, score 99.5; others in this class who made high scores were Esther Coleman, score 99; J. C. Maxey Jr., score 99 and Vernon Younts, score 99.

Class two; boy, Louis Wilford James, score 97.5 and girl, Beulah May Timberlake, 99.5. Others who made high scores were LeMoine Blake, score 98.5; Clair Blount Sledge, score 98; Shirley Ann Rutledge, score 98; Sammy Lane Becker, score 98.

Class three; boy, James Gray Suggs, score 96 tied with Harvey Wilburn Jr., and girl Catherine Ualls, score 98. Others in this class who made high scores were Gwinda Smathers, score 97; and Vera Hunsucker, score 97.

Class four; boy, Jack Lee Wilden, score 97, and girl, Lounelle Miller, score 98. Other scorers were Virginia Campbell, score 96.5; Harold Glenn Nelson, score 96.5.

Class five; boy, Joe Meaders, score 94.5 and girl, Marie Rich, score 97. Others who won high scores were Donald Richard Wray, score 93, and Janice Bowles, score 93.

Three children tied on the highest score and each were given a check for \$1.00.

The credit for the success of the better babies contest is due to the wide publicity given by the Evening News, the conscientious work of the physicians and the splendid co-operation of the Normal.

The Junior Women's Auxiliary of the Presbyterian church, who sponsored the affair, wishes to publicly thank the Evening News, Drs. Lewis Craig, Faust, McKeel, Lane Webster, Boyce, King, McNew, and Meredith and Mr. Nelson, and Misses Smith, Wright and Nennet of the Normal and all who assisted them. Also Miss Francisco of the Normal and those who assisted her.

We wish to thank Mr. Fred Brydia and Mr. McSwain for their courtesy and the following merchants who gave prizes: Coffman, Bobbitt & Sparks, Hope-Conn, Gwin & Mays, Hensler & Story, Rollow, Coon, Moser, The Globe, Shaw, Simpson, and Stevens-Wilson, and these merchants for contributing to the health exhibit, Shelton, Levin, Coffman, Bobbitt & Sparks, Rollow, Evans & Woodard, Stanfields, Gwin & Mays, Stevens-Wilson, Simpson, Sledge Lumber company, and all others who in any way assisted in the work.

Catholic School Damaged.

SALINA, Kan., March 26.—Forty feet of the third story wall with masses of steel and other construction work in the million dollar Marymount College building being built by the sisters of St. Joseph here, was blown down in a small twister accompanying a storm this morning. The wind at noon was blowing a terrific gale.

SENATE TO WIND UP TRAPP CASE

Resolution In To Adjourn
the House on April
Second.

(By the Associated Press)
OKLAHOMA CITY, March 26.—The senate court of impeachment which vindicated Lieutenant Governor Trapp will meet this afternoon to act formally on the action taken Thursday, by which the charges against the lieutenant governor were removed. Records of the case have been printed and the session today is to wind up the affairs of the court.

Two bills by Eli L. Admire, republican, were defeated yesterday in the senate. One was the boxing bill, the other measure providing a method by which towns school districts, townships or counties could lease land for permanent improvement or for oil and gas development.

The senate adjourned yesterday immediately after the introduction by senators McPherron, of Durant, of a bill, designed to bar the showing or transporting in the state of a moving picture film in which any persons of alleged criminal character appeared.

A resolution to adjourn the legislature April 2 was introduced in the house yesterday by W. T. Graves of Washita county.

LODGE TO STEER THE REPUBLICANS

Radical LaFollette Also Is a
Member of the Steering
Committee.

(By the Associated Press)

WASHINGTON, March 26.—Senator Lodge of Massachusetts is to be chairman of the republican steering committee as well as senate floor leader for the majority, according to plans made by the republican organization. He will succeed Senator McCumber of North Dakota as head of the unofficial steering committee, which has a large part in directing party action. Senator McCumber, who was a "mild reservationist" in the treaty controversy and not in harmony with the majority of the republicans in that contest, has been given a place on the committee of committees which makes republican assignments.

Senator LaFollette of Wisconsin is a new member of the steering committee.

BERGDOLL CASE UP FOR ADVISEMENT

KANSAS CITY, March 26.—Application for a writ of habeas corpus brought by Erwin R. Bergdoll, Philadelphia draft evader, to obtain his release from the federal disciplinary barracks at Leavenworth, Kansas, was taken under advisement today by Judge John C. Pollock after a hearing in federal court in Kansas City, Kansas.

Whether the mailing of a post card constitutes sufficient notification of a summons to the colors under the selective draft act is the principle point involved in the proceedings.

Bergdoll, brother of Grover Cleveland Bergdoll, draft evader now in Germany, is serving a five year sentence following his conviction by court marshal on charges of failing to report for military duty during the war.

It is expected that the decision will determine whether several thousand alleged "slackers" will be brought to trial.

GOVERNOR AFTER ROBBERS BANDS

OKLAHOMA CITY, March 26.—Governor Robertson today directed Attorney General Freeling to take charge of the prosecution of a band of alleged bank robbers in the trial in district court at Tulsa next week. The men are alleged to have been connected with the Sperry bank robbery December 28, last.

According to officials of the Oklahoma Bankers' association, they are alleged to have been the leaders of a bandit that has robbed at least thirty banks in the state within the last year or two.

Business Men Express Their Opinions on School Students

Speaking to the students of the High School Thursday morning at the chapel hour, Mr. Hickman, superintendent of city schools, gave some facts and observations that may be of interest to others. His talk embodied the results of a questionnaire submitted to sixteen business men, fourteen of whom responded. The questions asked, and the answers returned are given below:

One. As you see them from time to time on the streets and elsewhere, what is your general impression of the students of the High School?

Answers: One, good; 2, certain degree of carelessness; 3, hardly enough thought of responsibility; 4, good; 5, good; 6, as a rule the impression is good; 7, they appear so different in appearance and action that I can not answer this question intelligently; 8, good—they conduct themselves as ladies and gentlemen; 9, well behaved and far above the average; 10, have noticed nothing improper; 11, I divide the boys into two classes—those interested in athletics and all others; I am more interested in the athletes of the high school and find them measuring up to my standard of young men; they are polite, enthusiastic about their school work, their minds are not contaminated with evil thoughts; nearly everyone has high ideals and so far as I know the rest of the boys only slightly; some of them are as manly as the boys in first class—but there are one of two whom I notice from time to time who by their immoral habits are disgusting. 12, very favorable; this applied of course to the greater percent of them; there are always exceptions to all rules; 13, my first impression on viewing a bunch of high school students is that they are the cream of the earth.

Two. What one thing about them impresses you most?

Answers: One—Books, denoting home study. 2—Disposed to loaf too much. 3—Their youth, it is the most wonderful thing in the world. 4—On streets too much. 5—The great future before them, knowing that if they are willing to pay the price they can make of themselves what they will. 6—Fine school spirit. 7—Their youthfulness. 8—Lack of appreciation of opportunities at hand. 9—Their courtesy and good manners. 10—Their neatness and cleanliness. 11—Enthusiasm and loyalty. 12—Politeness and courtesy and the genteel manner in which they meet the public. 13—Their natural and spontaneous enthusiasm.

Three. What mistakes you see them making would you warn them against?

Answers: One—Extravagance. 2—Lack of responsibility. 3—Bad habits, too numerous to mention. 4—Matching coats. 5—Cigarette smoking and considering school a business proposition and making good at that business. 6—Visit places of amusement less and study more at home. 7—Cigarette smoking on the part of the boys and "painting" on the part of the girls. 8—Too much intimacy between boys and girls. Some boys smoke girls court the attention of men. 9—Loitering and smoking with boys and thoughtlessness on part of girls.

Four. From your experience what advice would you offer that might contribute to their success?

Answers: One—Acceptance of good advice from superiors. 2—Strict attention to business. 3—Have a worthy ambition cultivate good friends. 4—Keep busy at the job. 5—Be sure to learn obedience to constituted authority. 6—Avoid bad company and extravagance. 7—"What soever thy hand findeth to do, do with all thy might." 8—Apply themselves honestly to the task at hand. 9—Close application to business during study hours; play at playtime. 10—Obey school rules to the letter. 11—Be ever-

lastingly at the job. 12—Respect to teachers as those in authority, at all time taking honestly advice given by them, always on time as long as the time be profitably employed.

13—Get all you can and retain all you can. What you learn in the grades, especially the Freshman class of the high school, will be of greater benefit to you in a practical way than anything you can possibly attain in college.

Five. What is your estimate of the cigarette smoker from the standpoint of an employer?

Answers: One—Nil; would take abstinence in preference. 2—Prefer the man who doesn't. 3—Distasteful. 4—I think it would be better if he did not use them. 5—I saw two boys coming down the street this morning one with shoulders stooped smoking a cigarette and the other with shoulders erect and head back not smoking. I thought how much better chance to make good the boy who did not smoke. 6—The cigarette smoker is not wanted in business. 7—It is a formidable handicap but not the greatest fault. 8—No. I have no patience with him. 9—Taboo. 10—His chances of employment about 75-100. 11—A minor has no business smoking. 12—I am of the candid opinion that a young man reduces his usefulness from 10 to 50 percent besides the time lost and wasted in making and smoking them, not considering the enormous expense. 13—I would be forced to give my preference to the man or boy who does not smoke.

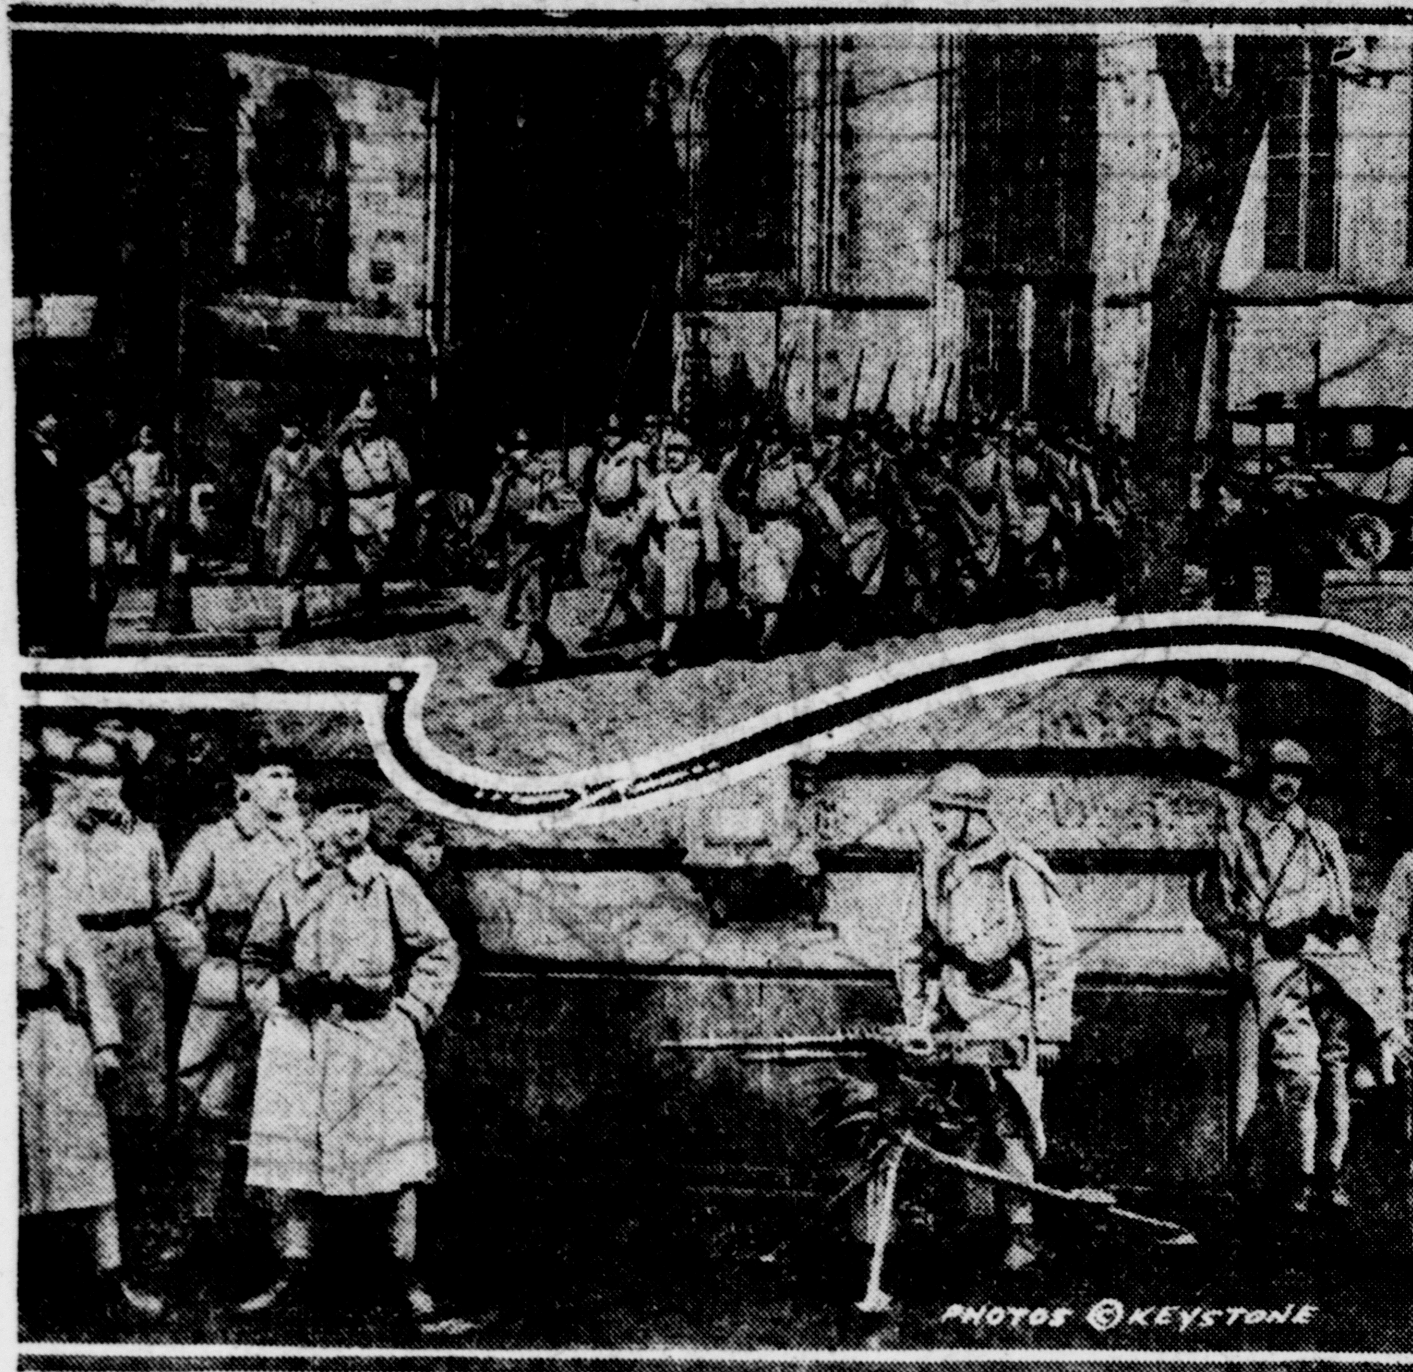

Six. What significance do you attach to sensible dressing, courtesy and general behavior as an employer?

Answers: One—Everything; these are indispensable. 2—Very fundamental. 3—They mean success; the lack of them, failure. 4—A great deal. 5—If a fancy dresser and a plain dresser were to apply to me for a position, the plain dresser would get the job, provided of course, the plain dresser has the ability. 6—The girl who wears gauzy waists, short tight skirts is out of place in the business world; she is not wanted. 7—"Clothes off proclaim the man" now as in Shakespears time. 8—Fundamental requirements and indicate character. 9—They are very important requirements. 10—Neat dressing and modest behavior is fundamental. 11—Very necessary to success and will make more friends than anything else. 12—Plain but comfortable and neat dressing is my strong argument. Courtesy will make more real friends than anything else in life. 13—Courtesy and sensible dressing are always the marks of good breeding.

Seven. What is the best investment you ever made and what returns did you get from it?

Answers: One—Building and loan investment. 2—Education. 3—Education, a vision for higher things. 4—The Boy Scout work; a realization that these boys are laying the foundation for good and useful men. 5—Learning obedience to constituted authority. 6—Energy and time which tend to develop character. 7—A fair education and the returns are being realized daily. 8—Time and energy devoted to a class of boys in a Sunday school; I saw them grow into splendid christian men. 9—A habit of courtesy and attention to old people; I get much joy from it today. 10—A determination in my own mind to render 100 percent service; it has made a successful business for me. 11—What little schooling I was able to pick up as I passed through my teens has proven the best in-

Scene as Allied Troops Hold Germany's Industrial Center

French troops marching through heart of Duisburg, above, and machine gun crew at strategic point in city.

To date the occupation of the main industrial and shipping centers of Germany by the allied troops as part of the plan to "un-

ish" Germany for her failure to accept allied reparations terms has been without trouble. The pictures above show the allied troops in pos-

session of the city of Duisburg, one of the four towns held. The others are Dusseldorf, Hamborn and Ruhrort.

STATE PLANS DRIVE ON THE CATTLE TICK

A tick-free Oklahoma before the year ends. This is the goal which progressive citizens in that state expect to attain. State pride in having Oklahoma free from cattle ticks is the impelling force behind action recently taken by the governor and the state legislature to complete tick eradication at the earliest possible time. Besides, a powerful sentiment has developed in Oklahoma among livestock owners also who realize that a clean slate will result in greater devel-

opment of agriculture and livestock raising and will attract capital from other states. Of the

INQUIRED INTO POISON CASES

Chemist's Analysis Shows
That Frank Kerr Died
of Arsenic Poisoning.

A court of inquiry was held at Allen Friday afternoon, to see what could be learned with reference to the mysterious cases of poisoning, which developed recently in the Frank Kerr and Fred Copeland home, one mile north of Steedman, resulting in the death of Frank Kerr two weeks ago, and the serious illness of four other members of the same household.

When attacked, the Kerr and Copeland families were living together in a tent one mile north of Steedman, on the Ada-Allen road. Mrs. Kerr was the first to be attacked by a sickness which indicated some kind of internal poisoning. Her illness was followed immediately by a similar attack on the other members of the two families except Mrs. Copeland, who alone was not affected.

Mr. Kerr was taken sick March 10 and died the following day. An autopsy was held and his viscera were removed and sent to the state chemist at Oklahoma City for analysis. The chemist informed County Attorney Wadlington Thursday that he had found a sufficient quantity of arsenic in the stomach of the dead man to kill two men.

A number of witnesses were examined at the trial yesterday and a close investigation was made into the home life of the two families. Nothing was learned which pointed to the guilt of any particular person, but it is understood that certain phases of the peculiar case are being carefully examined by the county officials.

Fred Copeland, the last to take sick, suffered the worst attack of any of the living victims. He spent a week at the hospital in this city and at one time came very near dying. He is now back to his normal health. The other persons who were effected are a 10-year-old daughter of Copeland, Mrs. Kerr and her 10-year old daughter.

MORTGAGES THAT NEVER COME DUE

Too good to be true, you say? Yet this is literally a fact. Your government has made it possible, through the Federal Farm Loan Act, to loan money to actual bonafide farmers only at 6 percent, without any commissions, which will liquidate themselves at their maturity of thirty-four and one-half years.

The private loan companies and other enemies of the Federal Farm Loan Banking Act have fought this favorable farm legislation from the time it was proposed, through the lower courts and to the supreme court of the United States, which recently declared it constitutional and water-proof.

Every obstacle has now been removed from the free operation of these Farmer Banks and the wise and progressive farmer will avail himself of the opportunities they present by giving them his loyal support and co-operation.

The Pontotoc National Farm Loan Association has been organized since 1917, and during the short time of its operation before being enjoined they loaned the farmers of this county over one hundred thousand dollars at a net saving over the prevailing rates of the private companies of approximately \$275.00 per thousand dollars borrowed.

Following are the officers of the association: J. W. Balthrop, president; I. R. Gilmore, vice-president; L. A. Braly, secretary-treasurer. The loan committee consists of G. W. Montgomery, W. M. McWhirt and I. R. Gilmore.

CONTENDS THAT HE CAN DIVE FIVE HUNDRED FEET

VANCOUVER, B. C., March 26.—That he can dive five hundred feet into the ocean and still work comfortably and easily is the contention of Frank Walters, diver and inventor of an aluminum diving suit. In a recent test he reached a depth of 336 feet, said here to be a world's record.

The suit is built of 5-8 and 1-2 inch metal and weighs over 300 pounds. In making his recent descent Mr. Walker added fifty pounds of lead to the soles of his shoes.

Owing to the rigidity of the suit pressure at the depth attained was but forty pounds to the square

Which of These Little Fellows Will Inherit Stillman Millions:

Jay Leeds, left, and Guy Stillman

NEW YORK.—The future of two small children, innocent principals in the tangled, hangs in the balance as the double divorce suits of James A. Stillman, multi-millionaire banker, and his wife, Mrs. Stillman was formerly "Fifi" Porter, actress.

The two children are: Guy Stillman, thirty months old. Jay Leeds, two years old. Guy Stillman is the son of Mrs. Stillman. Stillman denies he is the father of the boy. He names Fred Beauvais, half-breed Canadian guide as the father.

Jay Leeds is the son of Mrs. Florence H. Leeds, once a "chickie" in the Dillingham-Ziegfeld Cen-

inch inside the suit while it reached 170 pounds on the outside.

The suit has ball-bearing joints and artificial hands. It cost about \$3,000 to build. Mr. Walters is a well known diver.

GREAT DAY IS AHEAD FOR THE COTTON FARMER

STILLWATER, March 26.—Jas. A. Wilson, director of extension, Oklahoma A. and M. college today issued the following statement to Oklahoma cotton farmers:

"It will be a great day for the cotton-growers of Oklahoma when 30,000 of them have signed contracts to market 300,000 bales of cotton co-operatively under the plan worked out by the state themselves. For six months the plan has been under the scrutiny of friends and enemies alike and has come through the trial one hundred percent perfect.

"The best business men of the state say the business principles upon which it is founded are sound. The best bankers in the state say its financial plan is safe and practicable. Everyone is friendly toward it for whatever benefits the cotton grower, is good for everybody in cotton territory—bankers, business men, doctors, lawyers and all. It should be everybody's business, therefore, to see to it that the last man in each county who is eligible, be signed up during the week from March 28 to April 2, and finish up the campaign with a grand rally on the last day in every county seat town in the cotton belt.

"Let everyone catch the spirit of service and drop everything and help us finish this job that will take 100,000 boys and girls out of the cotton fields and put them in school, that they may have an opportunity in life equal to that of boys and girls in other sections. This is, no doubt, the biggest, finest opportunity providence has in store for you during your lifetime. What are you going to do about it?"

FIGHTING FACTIONS QUIET IN GERMANY

(By the Associated Press)

BERLIN, March 26.—Order has been restored at Eisleben and Hettstadt, it is announced by the German government. The rioters at Hettstadt blew up the railroad station, however, before they retired to the hills surrounding the town and set up machine guns which are reported to be firing at Security police in the city. Halle was quiet last night, it was reported, and municipal and utility plans were again in operation.

Organization known as councils of action are being organized at Bitterfeld. Government troops have not participated in the operation of suppressing communist rioting in central Germany, it is officially declared and the work of restoring order has been carried on by Prussian security police and local organizations.

TWO DAY SEARCH FOR NAVY BALLOON PROVES FRUITLESS

PENSACOLA, Fla., March 26.—Though discouraged by the failure of their two days search to reveal some trace of the missing craft, naval officers today had not given up hope of finding the missing naval balloon with its five occupants which has been missing from the air station here since late Tuesday. As the search progressed the belief grew that chief quartermaster, G. K. Wilkenson, and his four student companions, had succeeded in reaching shore at some isolated place, possibly an island or reef, and might not be heard from for days.

NOTICE.

All of our wagons will not be on regular routes for some time yet. However, we will gladly send you ice. Will deliver to any part of city, on calls received before 4:30 p. m., but will thank you to phone as early as possible, in the forenoon if convenient. PLEASE. 3-21-10td

Marriage License

Otis H. Healy of Tulsa and Mrs. Amanda Long of Tulsa.

COMMUNIST AGITATION CONTINUES IN MUNICH

(By the Associated Press)

PARIS, March 26.—Communist agitation in Munich is continuing according to dispatches to the foreign office which reports the breaking up by police of processions displaying red flags. Another message says that rioters broke into the railroad station at Brulau and carried off the cash box.

Harry Bunyard, city marshal of Roff, brought Ed Kelly, a negro, from Roff last night and placed him in the county jail to await a trial for alleged illegal possession of a quantity of Choclaw beer.

Want to buy a home? Turn to the want ads.

ALLEN MASONS WILL ENTERTAIN MONDAY NIGHT

ALLEN, March 26.—The Masonic lodge of Allen is planning a big program for next Monday night, March 28, when neighboring lodges will be entertained by the local lodge. Visitors from McAlester, Calvin, Ada, Stonewall and Francis are expected to join in the festivities.

Lodge will be opened promptly at 7:30 o'clock and the Master's degree will be conferred.

Good speakers will be present and a big "feed" will be served. Needless to say a large throng of masons will attend.

NOTICE.

If there are any ice cream tubs at your house or place of business, you will confer favor by calling us, so that we may send after them. THANK YOU.—Southern Ice & Utilities Co., phone 244. 3-21-10td

Read the want ads every day.

Homes Where You Can Live

I will, if there seems sufficient demand, subdivide a tract of land adjoining the city, where all city conveniences can be had in tracts from one to ten acres and price same per tract. The price will depend on tracts selected. I will make this proposition to sell you the land on one, two, three and four years time at eight percent from date, interest paid annually and you use your money improving the property. This is where you can live out of the city and still get the benefit of city conveniences and be in walking distance of schools, churches and business. A good graded road runs through this property. These tracts are set out so that good building sites can be had, some of groves of good size trees and other good alfalfa and pecan land. You can make a living on 5 acres here with chickens, cows, hogs and your garden. This property in time will become city property and will advance in value each year. It will be no trouble to show you these tracts and I am ready at any time with a car. All subdivisions of lands and additions, which I have sold in my fifteen years of experience in selling Ada City property (and this is the fourth one I have made) have made good and I think this one will do the same. If you are interested call phone 981, or home 409-R, or come and see me, office in First National Bank Building, Room No. 4.

R. E. Blanks

tury chorus and of late the "other woman." Mrs. Stillman charges. Stillman does not deny he is the boy's father. And his friends say that when he began his divorce action against his wife it was with the intention of getting his freedom that he might marry Mrs. Leeds and legitimate Jay so that boy and not Guy will inherit a share of the \$9,000,000 trust fund left by the late James A. Stillman, sr. This fund was designed to pass to James A. Stillman for use in his lifetime and upon his death was to be shared by his children.

The law dealing with the right of "Jay Leeds" to step into a part of the Stillman millions, as contained in "corpus juris" in the law library of Supreme Court Justice Joseph Morschauser at Poughkeepsie, declares under "subsequent marriage" of parents:

"The civil war and canon law, in

contradiction to the common law, allowed the subsequent marriage of the parents to legitimate previously born issue.

Following this rule a large majority of the United States courts have abrogated the common law doctrine and enacted that a subsequent intermarriage of the parents, accompanied by an acknowledgment of paternity on the part of the father, shall legitimate previously issue.

The general current of modern authority favors the doctrine that where an illegitimate child has been legitimate such legitimacy follows the child wherever it may go and entitles it to all the rights flowing from such status, including the right to inherit.

The importance of the two baby element in the litigation may explain to some extent why it was not possible to settle the divorce issue without going into court.

Physicians said he had about one chance in ten of recovering and that his condition was "very serious," but the flier himself remained cheerful and expressed the hope that he would yet be able to make the flight.

Lieutenant Coney was brought here from Crowley by way of Monroe, Louisiana, last night. This morning considerable fever had developed. The flier's mother, who watched him hop off at Jacksonville early yesterday morning and who was prostrated when she heard of his fall, is enroute here.

You will save money by reading the ads.

FLIER WITH HIS
BACK BROKEN IS
NEAR DEATH'S DOOR

(By the Associated Press)

NATCHES, Miss., March 26.—With his back broken and his body paralyzed from the chest down, Lieutenant W. D. Coney, transcontinental flier, whose airplane crashed near Crownville, Louisiana, yesterday, while he was attempting a record breaking flight from Jacksonville, Florida, to San Diego, California, today was battling for his life in a Natchez hospital.

SHOW GROUNDS NEAR FRISCO DEPOT
ADA, MONDAY NIGHT, MARCH 28

The phonograph that amazed Ada can be bought!

There is a rumor abroad that the instrument which triumphed in the drastic comparison test, made last Tuesday at Normal auditorium, was a special exhibition model. That rumor is false. The instrument was a regular Official Laboratory Model — out of our own stock.

Every Official Laboratory Model in our stock is guaranteed to sustain the same test.

If you were one of those, in Tuesday's audience, who wistfully exclaimed: "Wouldn't it be wonderful if I could buy a phonograph like that?"—know that you can. Know that it will perform this miracle every day for you in your own home.

The NEW EDISON

"The Phonograph with a Soul"

Come in and hear for yourself the Official Laboratory Model's marvelous realism. Find out about our Budget Plan, which enables you to own an Official Laboratory Model for a small down payment, the balance on a gentleman's agreement to suit your convenience.

NOTE:—The test at the Normal auditorium was made by Miss Helen Davis, gifted mezzo-soprano and Sibyl Sanderson Fagan, popular whistler, the world-famous soprano. They compared their living art with its Re-Creation by the New Edison. There was no difference between the living performance and the Re-Created performance.

The New Edison stands absolutely alone in this achievement; no other phonograph has ever sustained the test of comparison.

ADA MUSIC CO., Inc.

127 East Main, Ada, Okla.

A Few Instruments Certified by
Helen Davis and Sibyl Sanderson Fagan
Every one who selects his Official Laboratory Model now, receives one of these handsomely engraved documents, which certifies over the signature of Helen Davis and Sibyl Sanderson Fagan, that such instrument is the equal, in every respect, of the instrument used in their test. The artists have personally inspected all the Official Laboratory Models in our store.

BLIND WE WENT OUT.

We two had roamed all the summer together
God's out-of-doors with its joy and surprise;
House-locked now, by the passionate weather,
To me come dreams of her days and her skies.

"Let us go far," you had said as we started
"Far as that star in the west burning low—
From all we have known as a season be parted;
Wanderers of summer. Come, lets go."

Life, like the birds, we lived all the summer—
Walking at dawn its hush and surprise—
Braving the tempest, awed by its thunder,
Thrilled by the glory and glow of moonrise.

Ours the desire to drink deep of the sunlight—
Feel in our faces the wind on the wing;
Gypsy-like, follow the paths of the forests,
Eat by the roadside and drink from the spring.

Grew we away from the little—what matter
Some of the trifles that once held a sting?
Roses were blooming and yielding their attar;
Birds woke the day and taught us to sing.

Clean grew our hearts—once gardens of weeds,
What had been life, to ape one another;
Never the doers of some kindly deeds
Nor reaching a hand to a down-trodden brother.

"Let us go far," you had said as we started—
Far we had gone, and a new world was ours;
From the old life and the old days we'd parted—
Grown into new beauty and long hidden powers.

Blind went we out, and shallow of purpose;
Blind were we then, but now do we see;
We have dreamed dreams and with us is vision:
No longer bound to our past—we are free!

THE PRESIDENT AND THE PUBLIC SCHOOLS.

The Washington Post prints the following, giving credit therfor to the Baltimore Sun:

"President-elect Harding is theoretically correct in urging that well-to-do parents should send their children to the public schools, for the public schools give a training in democracy which but few private schools can furnish. But his advice will not result in the elimination of the private schools from our educational system until the standard of the public schools has been raised to a satisfactory point. At present it is a question in the minds of many parents whether the democratic spirit of the public schools is sufficient to offset the fact that these schools do not educate their pupils as thoroughly and as rapidly as do the private schools. Further, the specialized entrance requirements of the college are hard for the public schools to meet, for such schools are primarily for the children who will not go to college. The United States has a long road to travel before it overtakes democratic Switzerland, where Children of school age all attend public schools."

President Harding is most assuredly on the right side in this matter. If all the parents who are able to send, and do now send, their children to the private schools, and for this reason have very little interest in the public schools, were required to send their children to the public schools, they would all interest themselves in those schools to the extent of seeing that they were at least the equals, if not the superiors, of the private schools. Mind, if you please, we say private schools—the public schools are already the superiors of the parochial schools for any purpose whatever, except, perhaps, for the making of Roman Catholics. What we require is that the schools shall make Americans, without any sort of hyphen.

And, too sometimes, the sins of children are visited upon the parents.

What with marbles, kites, tops and now baseball, boyhood industry certainly has picked up.

You must admit that last year's "nickel nurser" has the wherewithal for his this year's income tax.

HERE'S TO HONEST BILL

In acknowledgement of his interest in the well-being of the Ada High School in general, and of the High School Athletic association in particular, and of his unexampled generosity in donating funds for the support of its enterprises, we, the faculty and student body of the Ada High School, desire hereby to go on record in our appreciation for these benefactions and for the interest which he has invariably manifested in us and our enterprises and in our expression of gratitude to Mr. William Newton (Honest Bill). As a citizen of our town, as a booster in our community, as a gentleman whose nickname fits his character most admirably, we commend him to the communities he visits with his shows and wish for him every degree of success in his undertakings.

This resolution was concurred in unanimously by the 300 students and twenty members of the faculty of the Ada High School in assembly, Friday, March 25, 1921.
A. L. FENTEM, Principal.

The Forum of the Press

Shawnee News: Oklahoma having run the whole gamut of Clarcicide, matricide, patricide and homicide during the last fortnight or two the state now seems to be threatened with a series of youthful suicides.

Visita Journal: William Jennings Bryan has been asked by members of the Y. W. C. A. of Miami, Fla., to make the race for president in 1924. With the women voting, Bryan says he can be elected. Because he fooled the men three times is no sign that he can fool the women once.

McAlester News-Capital: Gore is opening a law office in Washington and Ferris is opening a law office in Washington. Why don't they emulate the example of our late county attorney, Carl Monk, and his vanquished friend, McSherry, and open a law office together. Can you imagine a sign, "Gore and Ferris, attorneys at law"? Neither can we.

Muskogee Times-Democrat: It will only require a few more decisions like the one made by Muskogee motion picture theater managers to put Clara Smith Hamon's films on the blink proper. Muskogee movie men are the first in the nation to close their houses to the Ardmore vampire. Their action has found unanimous approval and is being followed in many cities not only in Oklahoma but in other cities. It deserves commendation.

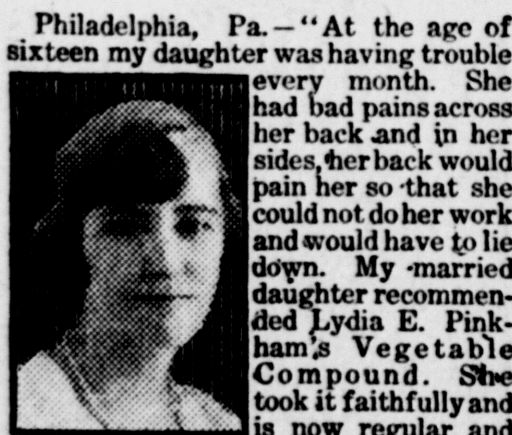

Tishomingo Capital-Democrat: It is reported that W. C. McAlester is to succeed Henry Wood as State Highway Commissioner. Mac is competent all right and would make a good one, but a "State Highwayman" seems to be always in danger, even when he does what he is told by the Chief Executive who appoints him.

Shawnee News: The suggested appointment of J. George Wright as commissioner of Indian affairs is one which should meet the hearty approval of every section of Oklahoma where there are wards of the government. A man of high character, possessing a thorough knowledge of the affairs of the Indians and with a peculiar attitude for the duties of the office he will have the support of the strong men of the state without regard to political affiliation. Appointments of this sort will serve to greatly strengthen the administration in Oklahoma.

Miss Clara Teal is spending the week-end with her parents at Center.

TOO ILL TO WORK

A Mother Tells How Her Daughter Was Made Well Again by Lydia E. Pinkham's Vegetable Compound

Philadelphia, Pa.—"At the age of sixteen my daughter was having trouble every month. She had bad pains across her back and in her sides, her back would pain her so that she could not do her work and would have to lie down. My married daughter recommended Lydia E. Pinkham's Vegetable Compound. She took it faithfully and is now regular and has no pain. We recommend the Vegetable Compound and give you permission to publish this letter."—Mrs. KATIE EICHER, 4034 N. Fairhill St., Philadelphia, Pa.
Standing all day, or sitting in cramped positions and often with wet feet, young girls contract deranged conditions, and before they are hardly aware of it they develop headaches, backache, irregularities, nervousness, and bearing-down pains, all of which are symptoms of woman's ills. If every mother who has a daughter suffering from such symptoms would profit by the experience of Mrs. Eicher and give Lydia E. Pinkham's Vegetable Compound a fair trial she may expect the same happy result.

Chinese Doctor and Rich Bride Come to U.S. for Honeymoon

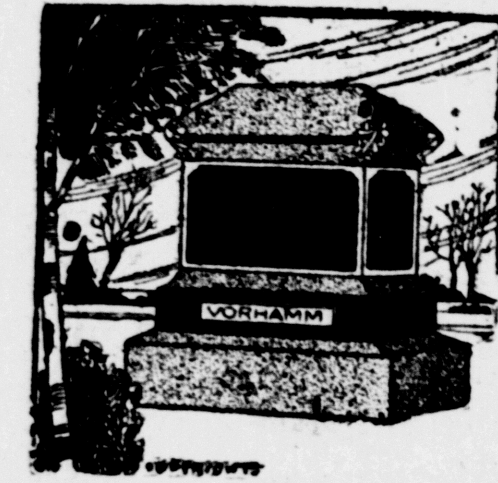

Dr. Arthur W. Woo and Mrs. Woo.

Dr. Arthur W. Woo, assistant surgeon in gynecology and obstetrics the Peking Union Medical hospital, the Rockefeller Foundation hospital, has come to the U. S. with his bride for their honeymoon. Mrs. Woo is the daughter of Choy Hing, one of China's wealthiest merchants.

Lepers Get Assistance.

HONOLULU, T. H., March 4.—(Correspondence of The Associated Press)—Free dispensaries throughout Hawaii for administering refined chaulmoorga oil to lepers would be established under two bills which have been introduced in the territorial house of representatives by Norman K. Lyman, representative from Hilo, Hawaii. The bills provide for opening chaulmoorga oil dispensaries on the islands of Hawaii, Maui and Kauai, in addition to those already operating successfully in Honolulu and at the Kalaupapa leper colony on the island of Molokai.

Active Days Ahead For Scout Members of Five City Troops

The Boy Scouts have been busy for the past few days. Work on the Twelfth street park is now occupying a great part of their attention. The pre-easter hike which they had planned was postponed on account of the wet condition of the ground. However they enjoyed an evening of wholesome fun at the Glenwood park yesterday afternoon and evening.

The condition of this park has been greatly improved by the work which they did yesterday afternoon. A large number of the boys were there with material for whitewashing, cleaning, cutting and in general fixing it up. The improvement made is very noticeable.

Mr. Penny, scout master of the Baptist troop, was presented with a beautiful fountain pen by the members of the troop on his resigning to go to Kirksville, Kansas. Mr. Penny wishes to express his deep appreciation to the boys for the kindness for him.

The Ada Lions club will entertain all the first class scouts of

the city with a luncheon at their next regular meeting. Those who are now first class scouts are Russell McAllister, Glenn Spencer, William and Henry Roach, Tom Steed, Drew Page, Richard Simpson, Punius Ridling, Carl Spangler, Renfro Herndon, Charles Harwell, Harry Allen and Webb Kiddle.

Appoint Laymen.

(By the Associated Press)
CHICAGO, Ill., March 25.—Appointment of the first layman assigned to the department of lay activities of the Methodist Episcopal church is announced by Dr. R. J. Wade, corresponding secretary of the church's committee on conservation and advance. Heretofore the position has always been held by a clergyman.

The new head of Methodist lay activities is L. F. Bower, of Evanston, Ill., a former vice-president and secretary of the Allis-Chalmers Co. of Milwaukee.

"The appointment of a layman for this work is in line with the progressive movement in Methodism expressing itself in this particular in giving laymen a greater recognition in the affairs of the church," Dr. Wade said.

Walter Olivo is visiting relatives in Sasakwa over the week-end.

"My right wing has crumpled up; my left wing is broken; my center is yielding. I am ordering a general advance all along the line."

The indomitable Foch—his army broken and beaten—reeling back toward the gates of Paris in misery and confusion, sent thundering through the annals of history his message of courage that knows no defeat.

So splendid an example of faith should inspire in us the best of courage and vision to overcome the obstacles that stand between us and permanent prosperity—sweeping us on to success.

Smart Apparel for the Sportswoman

March—Blue skies, white clouds scurrying across them, vivid sunshine, and under foot the spring of turf coming back to life. March, the time that calls one outdoors. Spring finds every woman needing a supply of those comfortable outdoor clothes for the season ahead.

SPRING TIME IS SWEATER TIME

Specially Priced—Lovely Silk Sweaters which for early Spring wear may take the place of a Blouse, or add just the needed warmth for outdoor wear. Their negligible bulk adapts them for wear even under a suit jacket, while the gay colors and beauty of weave makes them particularly desirable for outdoor days. Priced from \$10 to \$16.50.

Plaid Skirts to Enliven the Landscape

It's safe to wager many a one of these dashing models will make a tennis court a gayer place this spring, will add zest to the wearer's enjoyment on tramps, or help to decide quickly what to wear for impromptu occasions. Box and knife plaits alone or in combination predominate. White Flannel, Tricotine and Jerseys. Priced from \$13.50 to \$25.

ESTABLISHED 1903
SIMPSON'S
THE SURPRISE STORE
115-117 WEST MAIN ST.

WITH THE WOMEN OF TODAY

Mrs. E. C. T. Miller.

Innocent child and snow white flower!
Well are ye paired in your opening hour.
Thus should the pure and the lovely meet,
Stainless with stainless, sweet with sweet.

White as those leaves, just blown apart,
Are the folds of thy own young heart;
Guilty passion and cankering care
Never have left their traces there.

Artless one! Though thou gazest now,
O'er the white blossom with earnest brow,
Soon will it tire thy childish eye,
Fair as it is, thou wilt throw it by.

Throw it aside in they weary hour,
Throw it to the ground the fair white flower.
Yet as thy tender years depart,
Keep that hite and innocent heart.

—Bryant

Broyles-Eaton
Miss Simmie Lee Eaton became the bride of Paul Broyles at a pretty wedding service which took place Wednesday evening at the home of her parents, Mr. and Mrs. R. L. Eaton.

Spring flowers were used in decoration in the reception rooms.

Miss Pearl Crouchet was the bridesmaid while R. L. Lowenfield was Mr. Broyles' attendant. The bride was dressed in a modish creation of lavender and silver taffeta with picture hat matching in tint. Miss Crouchet was dressed in black lace and net, over black satin, with hat matching.

Following the wedding Mr. Lowenfield as host to a dinner for the wedding party.

Both Mr. Broyles and his bride have numbers of friends made during their residence in this city, where the former's business interests are located. They will reside at the Broyles home on Brown street.

The contracting parties are well known here and have relatives residing in the city as well as many friends, who are pleased to hear of the wedding.

Elks Give Dance

The closing dance of the season was that given by the Elks club last evening in their club rooms to members and their invited guests. A fine colored orchestra from Ft. Worth was engaged for the occasion and the event was highly enjoyed by all present.

There was a good representation of the club present and many friends were also invited. A delightful evening was spent in dancing the latest dances and having a good time in general. The Elks again lived up to their well known reputation of being royal entertainers.

Miss Draper Is Here

Miss Kate Draper, teacher of voice from Oklahoma City, has returned from her two week's vacation and re-opened her studio for a term of ten or twelve weeks. Those who are interested in taking lessons during this term will be able to reach Miss Draper by calling 259. She also has a studio in Oklahoma City and is an accomplished teacher.

John Craig, who is attending the Oklahoma University, is home for the Easter holidays with his parents.

Mrs. Byron Norrell of Tulsa arrived in the city yesterday for a few days visit with relatives and friends.

Miss Lucy Wilson left this morning for Oklahoma City where she will visit friends over the week-end.

Miss Anna Carroll Simpson is home for the Easter holidays with her parents and other relatives and friends. She is attending the University.

Miss Lois Bennett of Chickasha, head of the fine arts department of the College for Women there, is in the city to spend the Easter holidays with Mrs. L. E. Pettigrew.

Miss Lucy Hall is the week-end guest of Mrs. L. E. Pettigrew and other friends. She is head of the language department of the College for Women at Chickasha.

Mrs. L. E. Pettigrew and daughter Mary Elizabeth have returned from a ten days visit with Mrs. Pettigrew's mother, Mrs. T. J. Bennett of Hugo.

Miss Kathryn Taylor, 123 West 14th street, has for a house guest over the Easter holidays, Miss Alva Ackley of Muskogee.

Misses Florence Wener, Faye Deal and Merle Elliott and Mrs. Elliott, all of Wynnewood, are the week-end guests of Mrs. John Case and daughter Mary Frances.

Mrs. J. M. Hoover left today for Ft. Worth where she will spend several days visiting her mother, Word has been received in the city of the serious illness of her mother at that place and Mrs. Hoover will remain with her until she is better.

Mr. and Mrs. Tom McKeown have taken the Blanks home at 301 West Twentieth street until they build. They are planning to build a residence in the city, but for the present they will be home to their friends at this place.

energy. This is necessary for their development.

We have a splendid park with playground equipment and a swimming pool just being completed and many playgrounds in other sections of the town, but we hold these need supervision. We need a playground supervisor. One with initiative and pep enough to train and interest our young people in clean outdoor amusement during the three months of vacation. These three points we feel would really be constructive work, and your chairman, being president of the Auxiliary of Chamber of Commerce, the largest auxiliary of its kind in Oklahoma, called the members and all women interested in a better Ada to meet last Friday in the city hall. We expected a full house notwithstanding we are all busy women (no others are worth while) but the attendance was a disappointment and your chairman stated she hesitated about announcing the purposes of the call meeting.

But those faithful and loyal friends of Ada present insisted we outline our plan which we gave as above. Much enthusiasm was manifested, committees named to confer with the mayor as to rules regulating the public swimming pool, the milk inspection ordinance, the clean-up inspection and, last, it was decided to undertake a play to raise funds to help defray expenses of an employer or playground supervisor, and Mrs. Torbett kindly consented to act as chairman, which we feel assures us of success in this project.

Your chairman read some commandments for health and a better city, which she stated were not wholly original with her but compiled in part from propaganda used in previous health campaigns, but arranged and adapted to our present needs as she thought. The following are the commandments:

Ten Commandments for Health and a Better City

1. Remember thy garbage can to keep it covered and thou shalt have the scavenger empty it often lest thy garbage become stench in the nostrils of thy neighbor.

2. Thou shalt clean out the habitation of thy horse and thy cow frequently lest the fly flourish and spread infantile paralysis, fever, and other death dealing diseases.

3. Thou shalt build a sidewalk before thy house and a good road, that thy servants, thy friend, the stranger, and the book-agent bog not in the mud thereof.

4. Thou shalt cut the weeds on thy vacant lot, lest it become a hiding place for tin-cans, papers, and divers sort of trash.

5. Thou shalt plant many trees for the sun will smite thee if thou sittest not in the shade; thou shalt plant flowers and shrubs that thy habitation may be lovely in the eyes of man.

6. Thou shalt not harm thy neighbor's garden, nor let thy dog, nor thy hen, that is without thy gate.

7. Look thou not upon milk cows that have not been properly inspected for tubercular germs, nor the dairy properly cleaned, for the doctor will not hold thee guiltless if thy infant sickeneth therefrom.

8. Verily, verily, thou shalt cleanse thy house, and also tend thou to the cleansing of thy city's streets that germ breeding dust shall not arise to afflict thy husband and thy child and the stranger that liveth in the next block.

9. Verily, verily, thou shalt not place the business of money-making above the business of rearing thy children, lest the Lord, thy God hold thee guilty of the unpardonable sin.

10. Verily, thou shalt vote for men who have the health of the city at heart, and who will pass laws and amply provide for thy city's sanitation, to insure thy health and the stranger's health thou knowest not; for verily if the stranger is afflicted in thy city's boundary is afflicted a grievous because of thy carelessness the fly and his afflictions shall become thy children's and thine own. But if thou wilt do thy duty, and clean thy premises and compel thy neighbor to clean his premises, then shalt thou live long and happily and thy family with thee in the best city in the whole world, Ada, Oklahoma.

These were well received and adopted as propaganda to be used during our better cities campaign and it is the desire of the auxiliary that a copy of these be placed in every home in Ada. Mr. Chairman, as stated before, your chairman felt discouraged no more were present at that meeting and could not help asking the question: DO THE WOMEN OF ADA WANT A BETTER CITY? In looking about this room, with such a splendid attendance of Lions, I can recall the wives of only one or two members being present to help us, with what you have undertaken and which we

pledged to assist. Committees are necessary to plan work but unless we have a working body composed of all the women of Ada, we cannot hope to get far in making a better city in which to rear children. Members of the Lions Club won't you urge your wives to attend our next meeting?

Respectfully submitted,
MRS. TOM HOPE, Chairman

Local Postoffice Gets New Canceling Machine Installed

Postmaster J. W. Westbrook called a News reporter's attention to the new electric stamp cancelling machine this morning which has just been sent the office by the department at Washington.

It is a Universal machine of the very latest patterns, such as are used in the postoffices of the larger cities, and it is claimed that it will cancel stamps on letters at the rate of nine hundred per minute.

The new machine is electrically propelled and the envelopes are fed into it on one side and delivered on the other. It is a most wonderful piece of machinery and will materially expedite the work at the local postoffice.

Home Life Committee of "Better Cities" Organization Makes Its Report

Mr. Chairman:

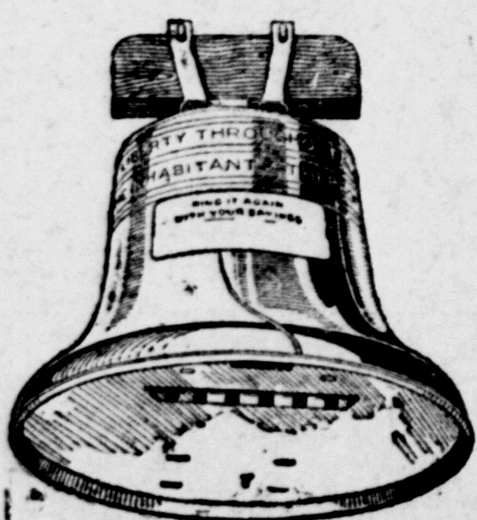

We the committee from the Home Life of "Better Cities" campaign beg to submit the following report:

We have met and discussed plans for work every Thursday since this committee was named except one. We will not attempt to take up each point outlined by Dr. McKeever for this work at this time. The committee found it difficult to take hold of this work because of its wide scope and its lack of funds to undertake much work. But we reasoned that first of all to have a better city in which to rear our children, we must have a clean healthy city. We must have good health before we can go another step in rearing our families. We boast of the best and purest water supply in the state—we know we have it and yet our town is not as sanitary as it should be. We decided to ask our mayor to issue a proclamation for a spring clean-up and to make it a 100 per cent clean up, then thereafter it will not be so hard to keep clean all the time, for the scavenger hauls all refuse that cannot be burned, if placed in boxes and barrels, once a month. We are asking the patrons clubs,

the boy scouts, the school children, and every citizen of Ada to come to our aid in this clean-up which will commence March 25 and last one week, when the wagons will haul the refuse away, April 1st and 2nd. After all is done a committee from the auxiliary of Chamber of Commerce will inspect the town accompanied by the city health officer. If your alley is clean a blue flag will be placed at the head of your alley, if only "sorter" clean a red flag and if dirty and unsanitary a yellow flag. WE MUST CLEAN ADA as our first point in this work.

Next we know that children must have pure food to develop properly and it is our duty to safeguard these children in the milk supply that is given them. We have the promise of our commissioners that an ordinance will be passed next Monday requiring inspection of all cows for tubercular germs and also the inspection of dairies as to sanitary conditions and the proper handling of milk.

We think that the next step should be clean play. No mother this day can claim she can rear her children unto herself—she cannot tie them to her apron strings—children must have an outlet for their buoyancy of spirit and surplus

Independence is what our forefathers fought for—it's what you should save for—get a Liberty Bell Bank and start today.

Nearer the Top

STALL'S STUDIO

Mr. N. B. Stall is sparing no effort in giving to the public of Ada the highest class photography and kodak work possible, and how well he is living up to this slogan is evidenced by the excellent business he has established within the time he has been operating his Studio in the city of Ada.

Before coming to Ada Mr. Stall was connected with several studios in St. Louis, having many years of experience which makes him very capable of turning out high class work.

To better facilitate the service at his studio, Mr. Stall has installed from time to time, new modern equipment, for the most approved methods of photography, and his Studio is now as well equipped as any in the southwest, and better than many Studios in larger cities in Oklahoma.

This popular studio is located at 110 1-2 East Main, phone 34, in a nicely equipped 3 room apartment, but Mr. Stall is contemplating moving to larger quarters downstairs sometime during the present spring, as his business has grown so in the last three years that the present location is not large enough for this growing Studio.

Mr. Stall with his wide experience and his well equipped Studio is turning out the highest class of work possible, and during his fifteen years in business in Ada, has won a reputation as a very capable photographer, and by so doing, receives work from many little towns, that would otherwise have their work done in the larger cities of the state.

Mr. Stall is a very progressive business man as shown by his other connections in a business way in the city. He is secretary of the Southwestern Photography Association, and has the agency for the well known "Paige" automobiles, besides being in several other small businesses.

A. O. U. W.—Lodge No. 40 meets first and third Tuesday nights of each month at Ada Business College.—J. B. Emory, secretary.

PARAMOUNT SUPERFEATURE CONTRACTED FOR SHOWING AT THE McSWAIN MONDAY

It is with a great deal of pleasure that the McSwain announces for its program next Monday and Tuesday, a Paramount super-feature which is being played in all the large cities and one which is being heralded by all who see it as one of the big photoplays of merit. Its a George Fitzmaurice production, who produced "On with the Dance" and has the same stars. The two most prominent stars are Mae Murray and David Powell. The title of this wonderful screen drama is "The Right to Love" showing here at sale prices Monday March 28. Thus happiness dispersed the clouds. "The right to love" had won the day.

Come early and avoid the crowds; They'll flock to see this photoplay.

Where Mrs. Stillman and Guide Spent Nights in Seperate Rooms

The boarding house at Manugance Rapids, Que., and Father Lemay, curate of Grandes Piles, friend and defender of Mrs. Stillman.

The keeper of the above boarding house at Manugance Rapids, Que., has testified that Mrs. James A. Stillman and the half-breed guide, Fred Beauvais, named as co-respondent by Mrs. Stillman's husband in his divorce action, spent several nights there one summer but occupied separate rooms. Stillman is a multi-millionaire New York banker. Both Mrs. Stillman and the guide deny any improper relations. Father Lemay of Grandes Piles, Que., is a friend of Mrs. Stillman and defends her actions in the woods.

College Gets Plate.

(By the Associated Press)

CHICASHA, March 25.—A photograph of President Millerand of France bearing his signature has been received as a gift by the French club of Oklahoma College for Women here. A letter accompanying the picture was addressed to Paul Roohat, "professor of French."

Red Cross Does Good Work.

ST. LOUIS, Mo., March 26.—Assistance was given 11,119 former service men by the Southwestern Division of the Red Cross last February, breaking all previous records for this character of relief work in a single month, according to Edward B. Orr, divisional director of civilian relief. The division takes in Arkansas, Oklahoma, Texas, Missouri and Kansas.

The increase in eight months has approximated 75 per cent. Unemployment and the financial stringency are principal causes for it, Mr. Orr said.

When employment was plentiful and wages high, Mr. Orr said many of these ex-service men failed to seek assistance for obtaining hospitalization, compensation and disability allowances.

Business College Notes

Work at the Business College is progressing nicely and the spring work is coming in fine shape. Several new students have been enrolled and some who have been out on account of illness and for other reasons are back again. The college has a large enrollment at this time and the students are taking a great interest in the work. Several have only recently accepted good positions, after finishing their courses.

T. J. Braley is a new student, having enrolled in the short-hand department this week.

Ross Tigert, who has been a student of the college for some time has withdrawn and will spend the summer at Mayto working.

Miss Neva Wright is a new student enrolled this week. She is a former student of the Normal and is taking a course in short-hand this term.

W. A. Flemming of Weleetka is a new member of the short-hand department. He only recently enrolled in the school.

Miss Opal Truax, who has been a student in the college for several months, left yesterday for her home in Frisco where she will spend the week-end with relatives.

Miss Oda McGuinn of Mansville left today for her home at that place for the Easter holidays. She

is a student of the college, having enrolled some time ago.

Miss Bertha Groves, who has been visiting at her home in Wetumka for the past week, will return to her work in the college Monday.

Miss Georgia Pollock, who has been out of school for the past three weeks is expected to re-enter again Monday.

Mrs. R. E. Bevel will take up her work again Monday after a week's absence on account of illness.

Boys Take Airplane Ride.
CHANUTE, Kan., March 26.—For committing to memory the lofty precepts of the Sermon on the Mount, eight boys in a Presbyterian Sunday school here were taken to material heights in reward. James Hodgins Smith, a lieutenant in the aviation service during the war, is teacher of the class. He gave the boys an airplane ride.

About the Park.
To every scout who brings five canna bulbs next Monday evening after school will be given a work credit. If you bring 10 canna bulbs you will get two work credits. Every scout who brings 10 periwinkle plants will be given a work credit, and for 20 plants two work credits will be given. Remember what size bulbs that parks are. Scouts should be at the park Monday evening.

Cold settled in the muscles of the neck, arms or shoulder makes every movement painful. Use Ballard's Snow Liniment. It relieves the pain and relaxes the muscles. Three sizes 30c, 60c and \$1.20. Sold by Hensler & Story. (adv)

Church and Sunday School

First Baptist Church.

Sunday school begins at our church at 9:45, with Mr. J. A. Ridling as general superintendent. We had 408 last Sunday and a collection amounting to \$75, which amount was sent to our orphanage. We want to urge upon every member of the Sunday school to be present tomorrow.

The morning service will begin promptly at 11 o'clock. The pastor will preach on the subject, "The Resurrection and the Power Therefore." We are hoping this will be one of the really great services of this year.

The Sunbeams will meet at 3 o'clock in the afternoon with Miss Annie Bell Perry in charge.

The Juniors will meet at 6:30 with Mr. and Mrs. A. H. Davis in charge.

The Intermediate B. Y. P. U. will meet at 6:30 with Mr. and Mrs. C. A. Bell in charge.

The Senior B. Y. P. U. will meet at 6:30. All young people are cordially invited to be present.

The evening services will begin at 7:30. The pastor will preach an evangelistic sermon and a call will be made for decisions to Christ.

In Washington city some great business men have erected an electric sign high on one of his buildings, which can be seen from almost any part of the city, high up with the darkness of the heavens for a background, and on it are these words: "Jesus the Light of the World." Surely this is true.

He is the light of individual lives also. Come to the services tomorrow evening and give serious consideration to the claims of Jesus Christ.

We have a splendid Mother's class in our Sunday school where all mothers with little babies can come and keep their babies with them. We will be glad to have all mothers attend this class.

The W. M. U. will meet Monday afternoon at 3 o'clock in districts as follows: No. 1 with Mrs. J. L. Huber; No. 2 with Mrs. L. A. Ellison; No. 3 with Mrs. Sprague; No. 4 with Mrs. Morris.

—Clyde Calhoun Morris, pastor.

The Presbyterian Church

There will be no preaching at the Presbyterian church Sunday morning. The congregation has received with gratitude invitations to worship with the other congregations of the city.

The Senior Christian Endeavor society will have charge of the Sunday night service. They will put on their Second Moving Picture which is furnished by the "New Era Movement." Everybody is cordially invited to come to the Sunday night service. The picture will begin at 7 o'clock.

The Sunday school will meet at 9:45 a. m. and the Intermediate will meet at 9 a. m. The Light-bearers will meet at 2:30 p. m.

The Senior Women's auxiliary will meet at the church Monday afternoon at 3 p. m. The Junior Women's auxiliary will meet with Mrs. Hamilton Monday afternoon at 3 o'clock.

The last meeting of the year will be held Wednesday evening. The pastor will be pleased to greet all the members at that service.

Senior C. E. Presbyterian Church
Topic: How can we make our lives useful?

Song service.
Scripture: Eph. 6:5-8.

Prayer.
What is your ideal of a useful life?—Eddie Mae Horn.

How can we be useful to our church?—Jeanette Bobbitt.

How did David serve his generation?—Miss Rowena Moore.

How can we be useful to our friends?—Ora Ewing.

Bible references.
Business.
Mirphah.

Owing to the fact that there will be no service on Sunday evening at the church the Endeavor society will have charge of the entire evening program. They have secured three reels on the church, its work and the handicaps under which it works. These pictures will be shown at this time. Everyone is cordially invited to attend.

My Part

Program for group four.
Captain—Bernice Bray.
At home—Glenn Potts.
At school—Geneva Hargis.
At the gate—Aliene Thomas.
At the church—Ruby Jones.
As a citizen—Thelma Ford.
Piano solo—Mary Demony.
Original essay—Bernice Bray.
Three short talks: City beautiful—Hazel Bennett. City healthful—Billy Keer. City happy—George Goddard.
Poem—Ennis Payne.

First Christian Church.

Sunrise prayer meeting at 6:30. Mrs. Waggoner, leader.

Sunday school at 9:45, C. E. Cunniff, superintendent.

The ladies of the church will have charge of the morning service at 11:00. Song service in the evening at 7:30. Special music. Everybody a cordial invitation to attend.

Missionary Society.

The divisions of the Missionary society of the Methodist church will meet with the following members: South side with Mrs. W. K. Chaney, Miss Sallie Fulton, leader. East side with Mrs. J. B. Gay, Mrs. Green leader. Young Women's club with Mrs. A. B. Mears, Mrs. T. O. Cullins, leader.

The News Bible Lesson

Ecclesiastes 7:1-10

A good name is better than precious ointment; and the day of death than the day of one's birth.

It is better to go to the house of mourning, than to go to the house of feasting; for that is the end of all men; and the living will lay it to his heart.

Sorrow is better than laughter; for by the sadness of the countenance the heart is made better.

The heart of the wise is in the house of mourning; but the heart of fools is in the house of mirth.

It is better to hear the rebuke of the wise, than for a man to hear the song of fools.

For as the cracking of thorns under a pot, so is the laughter of the fool; this also is vanity.

Surely oppression maketh a wise man mad; and a gift destroyeth the heart.

Better is the end of a thing than the beginning thereof; and the patient in spirit is better than the proud in spirit.

Be not hasty in thy spirit to be angry; for anger resteth in the bosom of fools.

Say not thou, What is the cause that the former days were better than these? for thou dost not enquire wisely concerning this.

Christian Science.

Services at 11 a. m. at 111 North Broadway. Subject, Reality. Golden Text: Isaiah 61:11. As the earth bringeth forth her bud, and as the garden causeth the thing that is sown in it to spring forth, so the Lord God will cause righteousness and praise to spring forth before all the nations.

STOMACH TROUBLES

Indiana Lady Had Something Like Indigestion Until She Took Black-Draught, Then Got All Right.

Seymour, Ind.—"Some time ago I had a sick spell, something like indigestion," writes Mrs. Clara Peacock, of Route 6, this place. "I would get very sick at the stomach, and spit or vomit, especially in the mornings."
"Then I began the use of Theodor's Black-Draught, after I had tried other medicines. The Black-Draught relieved me more than anything that I took, and I got all right."
"I haven't found anything better than Black-Draught when suffering from trouble caused by constipation. It is easy and sure. Can be taken in small doses or large as the case calls for."

When you have sick stomach, indigestion, headache, constipation, or other disagreeable symptoms, take Black-Draught to help keep your system free from poison.

Theodor's Black-Draught is made from purely vegetable ingredients, acts in a gentle, natural way, and has no bad after-effects. It may be safely taken by young or old.

Get a package of Black-Draught today. Insist on the genuine, Theodor's. At your druggist's. NC-143

THE BOY SCOUT NEWS

VOLUME I

PUBLISHED FOR THE ADA BOY SCOUTS

NUMBER 16

BOY SCOUTS ARE ACTIVE ON CIVIC WORK

WILL CONTINUE WORK ON PARK

Wet Weather Causes Boy Scouts to Postpone Operations.

Owing to the fact that the recent wet weather made it almost impossible for the ground to be disturbed with any success the scouts were forced to postpone the work on the Twelfth street park until it was in a better condition.

However the ground has been cleaned off and the scouts expect to finish the park soon.

The flowers to be planted have been chosen and each troop will have plots of canna, petunias and periwinkles. These flowers will be planted in the space assigned to each troop and the judging will be made on the care given them and the appearance made. Each scout should be at the park Monday afternoon following school and bring the following:

2 large canna bulbs, 6 medium size bulbs, and 18 small canna bulbs with 30 single petunia plants. These will be used in the inner beds. The side beds will require each scout to bring 40 single petunia plants, and 10 periwinkle plants.

The scouts are very grateful to Mr. W. M. Pitt of the Ada Greenhouse for the great assistance he has been to them in making plans giving much needed advice in making the park beautiful.

Get Contracts Now
Now that the white-wash season is about over the scouts are turning their attention to ways of making work credit money. It is several months yet until camping time and many of the scouts will be

forced to work hard to get the required number. The scout executive has suggested a plan to the boys that will be a great help in this matter.

There will be many lawns to mow soon and the hustling scout will get contracts to mow them now. The property owners of the city who have lawns to mow should be willing to let the scouts do it. Boys, now is the time to make hay.

Largest Scout.
The Boy Scouts of Ada have the largest 13-year-old scout in the state.

He is a new addition, having joined Troop 3 this week. He is Shannon Randolph and weighs 230 pounds.

Frank Morris advanced to the rank of second class scout this week.

Church of Christ.
The Church of Christ will hold regular services in the new church on East Main street tomorrow. Sunday school begins at 10 a. m.

Brother Hall will conduct the preaching services at 11 a. m. and 7:30 p. m. All are invited to attend these services.

Women's Auxiliary of Chamber of Commerce Elect New Officers

A meeting was held by the Women's Auxiliary of the Chamber of Commerce last Friday at the City Hall for the purpose of making some reports and considering further business matters that have lately arisen. The officers for the coming year were also elected at this meeting.

A report on the past year's work was interestingly given by Mrs. McKinley, and the work which they have dispensed with during that time was such as convinced the

THE VALUE OF WORK CREDITS.

Probably one of the greatest things for the boys of the city was the work credit system which has been adopted by the scouts. This is due to the work of the scout executive, Harry W. Miller, who first introduced the system to the boys.

It requires the boys to save 50 work credits, valued at 25 cents each or in other words, deposit \$12.50 in a bank as a savings account. Some of the boys may have a savings account, others would not have had otherwise. They must have these credits before they will be permitted to go on the summer hike, and they must earn the money themselves. It has a two-fold purpose, the boy in his eagerness to go on the hike, will do many things. He will work and save.

WORK CREDIT REPORT IN WEEK

All scouts are asked to bring their bank books to the scout headquarters by next Tuesday afternoon so that the scout executive will be able to examine them. It is very important that every scout have his credit printed and the earlier they are brought in the better it will be.

If the report is not ordered changed it will run as it was last month. Take the report to Mr. Miller at the scout headquarters.

The scouts are now turning their attention to baseball. They expect to form a league this year and some of the troops have already started practice.

to confer with the commissioners regarding regulations and rules governing the swimming pool. Mesdames Cain, Waits, Haynes,

Coming to Ada

DR. HAMILTON

MEDICAL DOCTOR SPECIALIST
Known to many People in Oklahoma

TREATING DISEASE WITHOUT SURGICAL OPERATION

Free Consultation to all who Want and Need Medical Aid.

Will be at HARRIS HOTEL
MONDAY, APRIL 4th.
Hours 10 a. m. to 5 p. m.

ONE DAY ONLY.

Dr. Hamilton licensed by the state, will introduce at the principal points throughout the state his system of treating disease and deformities saving in many instances dangerous and expensive surgical operations.

This visiting physician has devoted many years to the study and practice of chronic diseases and is a practical diagnostician and specialist in internal medicine. Will examine free all those interested as to their health, and in whose cases selected as favorable for treatment the proper medicines will be furnished or sent at a reasonable cost. The doctor furnishes all his own medicines.

The diseases treated are those of the stomach, liver, kidneys, bladder, blood, heart, nose, throat, lungs and skin, appendicitis, gall-stones, goiter, ulcers of the stomach and bowels, and rectal ailments, adenoids, swelling of the limbs enlarged veins, leg ulcers, rheumatism, neuralgia, some forms of paralysis, catarrh, bronchitis, asthma, blood and skin diseases, weak mentally, club feet, curvature of the spine, slow growth in children, bed-wetting and all curable diseases of men, women and children.

Dr. Hamilton is patronized generally by those who know and appreciate the superior ability of a specialist but have not so far had the opportunity to consult one, and his coming affords the many sick and afflicted a chance to consult him close to their homes. Married ladies must come with their husbands and children with their parents.

Address, Medical Laboratory, Boston Block, Minneapolis, Minn.

SMATHERS-SCHREIBER ORCHESTRA BIG HIT

From Holcombville Democrat: The prettiest affair for the social calendar of the last year was the dance given on New Year's eve at the Oasis club rooms. The hall was very elaborately decorated with everything suggestive of the holiday season. The Smathers-Schreiber orchestra of Ada rendered very beautiful music and arranged something new and different for every dance. The orchestra consisted of piano, saxophone, violin and drums. The musicians were real artists with their instruments as well as entertainers and acrobats. They were all full of life and stood up during every number, but at times it seemed that they were destined to topple over so forcibly did they rock to and fro with the swing of jazz. The drummer wore roller skates during a part of the program, while the violinist and saxophone player climbed on the piano and chairs and let the jazz music peal forth. A number of trick instruments were introduced by the orchestra, the feature of these being a high silk hat with a Chinese wood block cut out to fit the top and attached thereto. This adorned the head of the stimulating fiddler and during moments when his head was bowed low with the swing of the music the drummer played on the hat. Several beautiful features were also introduced by them but, strangest of all, a rain now appeared at night. The orchestra had arranged beforehand a row of snow containers and attached them to the ceiling overhead. They were controlled by the drummer and were let loose when the rainbow appeared. Nothing could be more bewitchingly enchanting than was this snow scene. A wonderful lantern with colored slides was used to throw vari-colored lights about the hall, the snow flakes falling down upon the dancers while the orchestra softly played Drifts Along to the Isle of Dreams. Rolls of confetti were thrown about the hall, the dancers becoming more and more entranced in the strips of vapor. On several occasions orchestras have been engaged out of Oklahoma City, Ardmore and Tulsa, but it is said that the music or entertainment of none of these was enjoyed as was the Smathers-Schreiber organization. They were well worth the \$100 paid them. All dancers being masked, each was given a number, that they might be identified. True democracy was perfectly exemplified, as all specimens of humanity danced together. Beautiful Southern maidens forgot their aristocracy and danced with bell boys and hobos, and what would Shakespeare say could he have seen the beautiful Juliet dancing with Weary Willie? People of every station, mingled together—Romeo and Juliet, Spanish Cavaliers and Weary Willies, Pierrot, Pierrotte, Yuma Yuma, Clowns, Southern maids and gentlemen, bell boys, flower girls, cow boys, Turks and Japanese. The twelve dances were arranged

Galli Was Lonesome, So Was Homer, So She Changed Mind

Galli-Curci and her new husband-to-be, Homer Samuels.

CHICAGO, Jan. 11.—(Special)—When Galli-Curci obtained her divorce from Luigi C. Curci last January she said "never again." Then she went to Europe. While there she got "Oh, so lonesome," she now says. And it was for Homer Samuels, her pianist, that she pined, she found when he met her at the pier in New York on her return. Homer proposed right there, and she accepted. They're to be married in Minneapolis, January 16. Mme. Galli-Curci's divorce suit was sensational. Many charges were made on both sides. She accused him of numerous amours. Luigi alleged she left him only after he had surprised her and Homer Samuels

in a compromising position at the Curci summer home, Pine Hill, N. Y., August 16, 1918. He denied all her charges. Mme. Galli-Curci rose to fame overnight. Unknown, unheralded, she appeared in Chicago November 18, 1916. Her singing of "Caro Nome" so affected the audience that men and women jumped to their feet in wild acclaim. Since then her career has been a succession of triumphs. She was so touched by the appreciation of her talents that she announced she would become an American citizen. She was granted first citizenship papers January 7, 1920. These will be made final the day of her wedding. Spanish costume of black and silver lace, with large fringed shawl and a typically Spanish head dress of black lace and large red rose. Ethel Tiger, of Weemuka, masked as a Jap won a large box of cigars. Printed at the end of each program were these words: "The old Diamond acting as judges. Miss Gladys Schaif as No. 27 won a gorgeous box of candy. She wore a gorgeous

NEWS NOTES FROM MOVIELAND

There was a time when Mary Pickford curls, Charlie Chaplin feet, a Doug Fairbanks smile or a previous operatic career was needed to start one on the road to fame as a motion picture actor or actress. Indeed, a press agent was at a loss if his particular leading man or leading woman was not possessed of one or more of these qualities. I am not sure whether press agents have become more inventive or the movies have really progressed and reached a higher plane. Whatever it may be the cause, it seems to be an established fact now that one simply must have family to get a stellar role in the movies. It seems to be merely a question of time when one will raise the eyebrow slightly, register boredom and say, "who are these Smiths of Canada, anyway?" There's Tallulah Bankhead of the senator's family, y'know, and Lady Diana Manners of English nobility and quite a goodly number of other "familiar" actors. The most recent one to rise to fame through her ancestors is Miss Margaret Beecher, granddaughter of Henry Ward Beecher. Miss Beecher is the star in "Sunshine Harbor," which is to be released shortly. She is shown here standing at the base of the Beecher monument before the city hall in Brooklyn.

What's In a Name? "Seena Owen" used to be Signe Auger. That was when she lived in Denmark and could sing the Danish national anthem in the language in which it was written. But no one in movie circles knew how "Signe" was pronounced. The variations ranged from "Sine" to "Seenyee," so she decided to Americanize the whole works, and she did.

Nazimova to Do "Camille" Next. Well founded rumors have it that Madame Nazimova is not to film "Aphrodite" after all, and from the same source we hear that "Camille" will be substituted as the vehicle for her next Metro special. While neither Nazimova nor Metro folk will absolutely confirm these rumors they do not deny that "Aphrodite" will probably be shelved for the reason "it said that a foreign production of the same story is about to be released east, and that the star and her associates have decided it would be impractical for them to carry out their elaborate plans for the production just now.

Speaking of All-Star Casts. All-star casts are decidedly au fait in film circles these days. Mr. and Mrs. Carter de Haven announce in their support for "The Girl in the Taxi" King Baggot, Grace Cunard and Otis Harlan as a starter. Even the studio is star material, being the property of Charles Spencer Chaplin, Esq., who has leased it to his fellow run-makers.

Bad digestion robs the body of the nourishment it needs to maintain health and strength. To restore tone in the digestive organs there is no better remedy than Prickly Ash Bitters. It is the remedy that men use for purifying the stomach, liver and bowels. Price, \$1.25 per bottle. Gwin & Mays Drug Co., Special Agents.

UNUSUAL CONDITION

Texas Lady Suffered With Pulling and Aching Pains in Her Back, Which Cardui Relieved.

Houston, Texas.—Mrs. C. D. Cook, of 1912 Whitty Street, this city, recently said: "About four months after my marriage, I... began suffering much pain, and know that my condition was unusual, but couldn't just decide what was wrong. I had to go to bed.... "All across my back and hips were pains, pulling and aching until I could hardly sit up. I stayed in bed a few days. My husband had heard of Cardui... so I told him he might get it. "After I had taken Cardui a few days, I was up. I took five bottles and haven't been in bed since for this trouble, for if I have the least symptoms of this trouble I get Cardui and take it in time. "I have a number of friends who have used Cardui, and they recommend it very highly. "The experience of this Texas lady is similar to that related by thousands of other women. Cardui is purely vegetable, and mild and gentle in its action. Cardui may be the very medicine you need if suffering with womanly troubles. Take Cardui. NC-134

BROUGHT HOME FORTUNE IN OLD WORTHLESS ROCK

CADILLAC, Mich., Jan. 8.—Nelson Nolf, living near Cadillac, brought several pounds of stones with him when he returned from northern Russia where he served with the American military force. Recently the stones were found to be almost pure platinum and experts say Nolf will receive about \$18,000 for them. Nolf used the stones for door weights. Each time a door banged against one of them, several dollars worth of platinum was knocked off. The ore was found by soldiers from Northern Michigan on the Dvina river, about 35 miles from Archangel.

LEGION MEN SURVEY HOSPITAL SITUATION OKLAHOMA CITY, Jan. 9.—A meeting of the state hospitalization committee of the American Legion for the purpose of hearing a complete report on the condition and treatment of all former ex-service men now being treated in Oklahoma

hospitals will be held here tomorrow. The results of a survey of all hospitals in the state to ascertain the number being treated, recently made by five members of the committee from all parts of the state, will be considered at the meeting. Members of the committee who will meet and submit the report are: Alva J. Niles, Tulsa; John Spaulding, Enid; Roy Hoffman and Earle M. Simon, Oklahoma City; Joe C. Creager, Chian and Forrest Dargrough, Hugo.
